

The Emin Way Presents

How to Learn About Any Subject without Reading a Book or Consulting Google

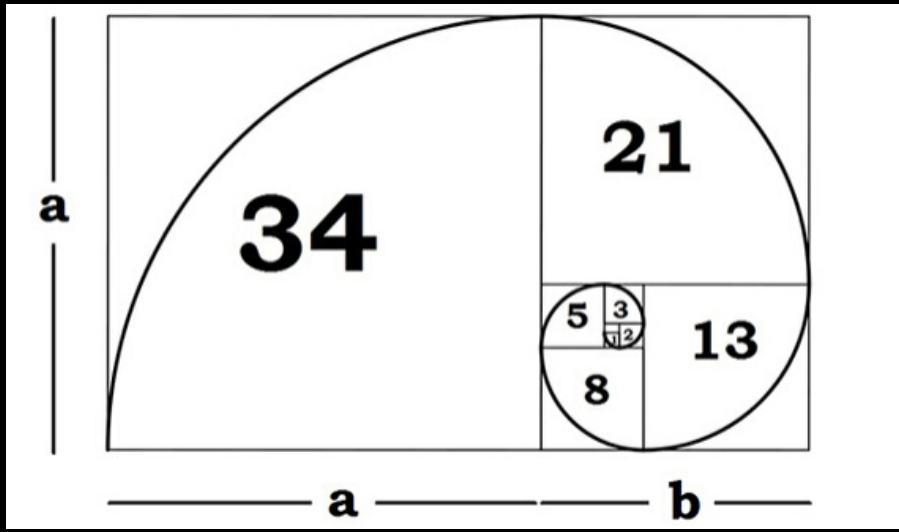

Rote learning is really boring, wouldn't you say? Memorizing something for a test is both tedious and time-consuming.

Enter a new concept: learning motivated by a passion for understanding life! It's a treasure hunt that keeps on giving, gem after gem. The question is, how to do it?

If we read something in a book or on the internet, it's not always true. And even if true, just knowing the fact of it will not impart the meaning and richness of the subject.

You are invited to join us for this workshop, during which we will work to develop our abilities using tools such as numerology, shapes and sacred geometry, a deeper study of the alphabet, special language, colors . . . With the right tools we will be able to unlock any subject and discover it as a living vibrancy, opening new pathways to enrich our lives.
